

# .44 RYE WHISKEY

TEXAS RYE WHISKEY	ALC. BY VOL. <b>47%</b>	PROOF <b>94</b>
-------------------	----------------------------	--------------------

.44 Rye is a 100% rye whiskey aged in our used bourbon barrels. The used barrels produce a more spirit-forward whiskey that allows the flavor of the grain to shine.

The third release in our Small Caliber Series is an innovative take on the traditional American whiskey. Rye whiskey has a long history in the United States, which includes George Washington operating the largest distillery of its time. Rye has a distinct flavor that can be diverse and complex. It is often described as spicy or fruity and can manifest as cinnamon, nutmeg, mint, clove or tobacco.

The whiskey opens up with two drops of water to amplify the diverse rye flavors.
